Description

The three edge-mounted tape decks with phase dividers are essential components for optimizing audio and electronic systems. Designed to provide a secure and efficient connection, these tape decks allow for balanced signal distribution, minimizing interference and improving sound quality. Manufactured with high-quality materials, they guarantee durability and resistance in various applications. Its compact design facilitates installation in confined spaces, while the phase separators ensure proper signal alignment, resulting in superior system performance.

- **Material:** High-strength stainless steel
- **Dimensions:** 100 mm x 50 mm x 5 mm
- **Weight:** 200 g per plate
- **Load capacity:** Up to 10 kg per plate
- **Phase separators:** Included for better alignment
- **Installation:** Quick and easy, with included screws
- **Compatibility:** Suitable for audio and electronic systems
- **Finish:** Polished surface for improved aesthetics
- **Use:** Ideal for professional and domestic
- **Certification:** Meets international quality standards
