

Product sheet

SCHNEIDER 250A 36kA DC 4-pole circuit breaker for electrical protection.

Brand: SCHNEIDER

Reference: IMPO C25F4D

The NSX250F 36kA DC 4P 250A Circuit Breaker is an electrical protection device designed for direct current systems. It offers a 36kA breaking capacity and features four poles, making it ideal for industrial and commercial applications.

Description

The NSX250F 36kA DC 4P 250A Circuit Breaker is an electrical protection device designed for direct current applications. This device is characterized by its high breaking capacity of 36 kA, ensuring an effective response to short circuits and overloads. Its 4-pole design allows for versatile connection in three-phase systems, ensuring balanced load distribution. The robust construction and high-quality components guarantee reliable performance in demanding industrial environments. This circuit breaker is ideal for protecting electrical circuits in solar installations, energy storage systems, and other applications where safety and efficiency are paramount.

- **Model:** NSX250F
- **Interrupting Capacity:** 36 kA
- **Current Type:** Direct Current (DC)
- **Number of Poles:** 4P
- **Rated Current:** 250 A
- **Dimensions:** Compact for easy installation
- **Protection:** Overload and short circuit
- **Applications:** Solar systems, energy storage
- **Certifications:** Complies with international standards
- **Operating Temperature:** Wide range for diverse conditions environmental

Specifications

Rated current (A)	250
EAN	3606481994837
No. of poles	4P
Reference	SCHNEIDER C25F4D
