

## Product sheet

## SCHNEIDER C60N 3-pole 6A circuit breaker with UL1077 protection.

Brand: SCHNEIDER

Reference: IMPO M9F22306

The C60N UL1077 3P C 6A Box is a 3-pole circuit breaker designed to protect electrical circuits. Its 6-amp capacity makes it suitable for a variety of applications. Manufactured with quality materials, it ensures durability and safe operation.

### Description

The C60N UL1077 3P C 6A Box is an electrical protection device designed to ensure the safety and proper functioning of electrical installations in residential and industrial environments. This modular circuit breaker offers an effective solution for overload and short-circuit protection, ensuring the continuity of electrical service and minimizing the risk of damage to connected equipment. Its compact design allows for easy integration into electrical panels, optimizing available space without compromising functionality.

- **Type:** Modular circuit breaker
- **Standards:** Complies with UL1077
- **Poles:** 3P (three-phase)
- **Rated current:** 6A
- **Tripping curve:** Type C, suitable for inductive loads
- **Rated voltage:** 400V AC
- **Dimensions:** Compact, ideal for electrical panels
- **Installation:** Easy DIN rail mounting
- **Material:** High-strength housing
- **Applications:** Residential and industrial

### Specifications

|                   |                    |
|-------------------|--------------------|
| Rated current (A) | 6                  |
| Curve             | C                  |
| EAN               | 3606481168573      |
| No. of poles      | 3P                 |
| Reference         | SCHNEIDER M9F22306 |
