

Product sheet

**SCHNEIDER C60N 4-pole 10A
type C circuit breaker, 230V,
UL1077.**

Brand: SCHNEIDER

Reference: IMPO M9F22410

The C60N UL1077 4P C 10A Box is a 4-pole circuit breaker designed to protect electrical circuits. With a rated current of 10A, it offers safety and reliability in electrical installations, complying with current regulations.

[View product online](#)**Description**

The C60N UL1077 4P C 10A Box is an electrical protection device designed to ensure the safety and proper functioning of electrical installations. This modular circuit breaker has four poles and a 10-ampere current rating, making it an ideal choice for residential and industrial applications. Its compact design allows for easy integration into electrical panels, while its advanced technology ensures a rapid response to overloads and short circuits, thus protecting connected equipment and minimizing the risk of electrical failures.

- **Type:** Modular circuit breaker
- **Model:** C60N UL1077
- **Number of poles:** 4
- **Rated current:** 10A
- **Rated voltage:** 240/415V
- **Tripping curve:** C
- **Protection against:** Overloads and short circuits
- **Mounting:** DIN rail
- **Certifications:** UL1077
- **Dimensions:** Compact for easy installation

Specifications

Rated current (A)	10
Curve	C
EAN	3606481168689
No. of poles	4P
Reference	SCHNEIDER M9F22410

Nominal voltage (V)	230V
