Description

The **2POS.NA C.KEY** selector switch is a high-quality device designed for applications requiring precise and safe control of electrical circuits. This selector switch allows switching between two positions, offering an efficient solution for managing electrical systems in industrial and commercial environments. Its robust construction ensures a long service life, while its ergonomic design facilitates handling. This product is ideal for use in machinery, control panels, and automation systems where reliability and safety are paramount.

- **Selector Type:** 2-position
- **Material:** Durable plastic and metal
- **Connections:** Screw terminals
- **Rated Voltage:** 250V AC
- **Rated Current:** 10A
- **Dimensions:** 30mm x 30mm x 50mm
- **Operating Temperature:** -10°C to 60°C
- **Certifications:** CE, RoHS
- **Installation:** Panel mount
- **Color:** Black
