

Product sheet

LINERGY 4-pole automatic switch with IP65 connection and protection.

Brand: SCHNEIDER

Reference: IMPO LVS04411

The Linergy FC NSXm 4P with connection is a device designed for electrical distribution. It offers an efficient and safe solution for energy management in industrial and commercial facilities, guaranteeing optimal performance and easy integration into existing systems.

Description

The Linergy FC NSXm 4P with connection is a device designed for the distribution of electrical power in industrial and commercial applications. This equipment is characterized by its robustness and reliability, offering an efficient solution for managing electrical loads. Its modular design allows for easy integration into existing systems, optimizing space and facilitating maintenance. Furthermore, it features advanced characteristics that guarantee safe and stable performance, adapting to various installation configurations.

- **Device Type:** Electrical Power Distributor
- **Connection:** Four-pole (4P)
- **Dimensions:** Compact for easy installation in confined spaces
- **Material:** Robust construction for industrial environments
- **Operating Temperature:** Wide range for diverse environmental conditions
- **Standards:** Complies with international safety and efficiency standards
- **Ease of Maintenance:** Modular design allows quick access to internal components
- **Compatibility:** Easy integration with existing energy management systems
- **Applications:** Ideal for industrial, commercial, and infrastructure environments
- **Certifications:** Certified according to quality and safety standards

Specifications

EAN	3606481866530
No. of poles	4P
Reference	SCHNEIDER LVS04411
