Product sheet

SCHNEIDER C60N 2-pole, 1A switch, UL1077 protection, compact and efficient.

Brand: SCHNEIDER

Reference: IMPO M9F23201

The C60N UL1077 2P D 1A Box is an electrical protection device designed for industrial applications. It offers safety and reliability features, ensuring optimal performance in demanding environments. Its compact design facilitates installation in various electrical systems.

Description

The C60N UL1077 2P D 1A Box is an electrical protection device designed to ensure safety and efficiency in electrical installations. This double-pole circuit breaker offers a rated current capacity of 1A, making it an ideal choice for low-power applications. Its compact and robust design allows for easy integration into electrical panels, ensuring optimal performance under various operating conditions. Furthermore, it complies with UL1077 standards, guaranteeing its reliability and safety in use.

- **Device Type:** Double Pole Circuit Breaker
- **Standards:** Complies with UL1077
- **Rated Current:** 1A
- **Rated Voltage:** 240V
- **Frequency:** 50/60 Hz
- **Dimensions:** Compact for easy installation
- **Housing Material:** Durable Plastic
- **Protection:** Overload and Short Circuit
- **Operating Temperature:** -25°C to +60°C
- **Certifications:** UL, CE

Specifications

Rated current (A)	1
EAN	3606481169068
No. of poles	2P
Reference	SCHNEIDER M9F23201
