Product sheet

SCHNEIDER C60N 2-pole, 4A switch, UL1077 protection, compact and efficient.

Brand: SCHNEIDER

Reference: IMPO M9F23204

The C60N UL1077 2P D 4A Box is an electrical protection device designed for low-voltage circuits. It offers a 4-amp capacity and features two poles, ensuring safety and reliability in electrical installations.

Description

The C60N UL1077 2P D 4A Box is an electrical protection device designed to ensure the safety and proper functioning of electrical installations. This double-pole (2P) circuit breaker offers a rated current capacity of 4 amps, making it an ideal choice for low-power residential and commercial applications. Its compact and robust design allows for easy integration into electrical panels, ensuring an efficient and tidy installation. Furthermore, it complies with UL1077 standards, guaranteeing its reliability and performance under various operating conditions.

- **Type:** Double Pole (2P) Circuit Breaker
- **Rated Current:** 4 A
- **Standard:** Complies with UL1077
- **Protection:** Overload and Short Circuit
- **Installation:** DIN Rail Mounting
- **Dimensions:** Compact for easy integration
- **Material:** Heavy-Duty Housing
- **Operating Temperature:** Wide range for diverse applications
- **Service Life:** Long life under normal operating conditions
- **Applications:** Residential and Commercial

Specifications

Rated current (A)	4
Curve	D
EAN	3606481169037
No. of poles	2P
Reference	SCHNEIDER M9F23204
