

Product sheet

SCHNEIDER ATV320 0.37 kW 400V 3-phase variable frequency drive with advanced control.

Brand: SCHNEIDER

Reference: IMPO ATV320U04N4B

The ATV320 0.37KW 400V 3PH BOOK CONTROL VARI is a frequency inverter designed for industrial applications. It offers precise motor control, optimizing performance and energy efficiency in 3-phase systems. Ideal for various configurations.

Description

The ATV320 0.37KW 400V 3PH BOOK CONTROL VARI is a frequency inverter designed to optimize the control of electric motors in industrial applications. This device offers an efficient and versatile solution for load management, allowing precise adjustment of motor speed and torque. Its compact and robust design facilitates integration into different work environments, while its intuitive interface simplifies programming and operational monitoring. With a capacity of 0.37 kW and a voltage of 400V, this drive is ideal for a wide range of applications, from pumps and fans to conveyor belts and automation systems.

- **Rated Power:** 0.37 kW
- **Supply Voltage:** 400V
- **Phases:** 3PH
- **Speed Control:** Frequency Converter
- **Interface:** Intuitive control and easy programming
- **Applications:** Suitable for induction motors and industrial applications
- **Protection:** Overload protection circuit
- **Dimensions:** Compact design for easy installation
- **Temperature Range:** Operation in diverse environmental conditions
- **Certifications:** Complies with international safety and efficiency standards

Specifications

EAN	3606480966385
Reference	SCHNEIDER ATV320U04N4B
Nominal voltage (V)	380V
