SCHNEIDER ATV320 0.75 kW 400V 3-phase advanced control variable frequency drive

Brand: SCHNEIDER

Reference: IMPO ATV320U07N4B

The ATV320 0.75KW 400V 3PH BOOK CONTROL VARI is a frequency inverter designed for industrial applications. It offers precise control of three-phase motors, optimizing performance and energy efficiency in various configurations. Ideal for demanding environments.

Description

The ATV320 0.75KW 400V 3PH BOOK CONTROL VARI is a frequency inverter designed to optimize the control of electric motors in industrial applications. This device offers an efficient and versatile solution for load management, enabling soft starting and precise speed control. Its compact and robust design facilitates integration into various work environments, while its intuitive interface simplifies programming and monitoring. With a capacity of 0.75 kW and a voltage of 400V, this drive is ideal for a wide range of applications, from pumps and fans to conveyor belts and compressors.

- **Rated Power:** 0.75 kW
- **Supply Voltage:** 400V
- **Phases:** 3PH
- **Speed Control:** Frequency Converter
- **User Interface:** Intuitive and easy to use
- **Protection:** Against overloads and short circuits
- **Dimensions:** Compact for easy installation
- **Applications:** Suitable for motors in various industries
- **Operating Temperature Range:** Wide range for diverse conditions
- **Certifications:** Complies with international safety standards

Specifications

EAN	3606480966408
Reference	SCHNEIDER ATV320U07N4B
Nominal voltage (V)	380V
