Product sheet

SCHNEIDER C60N automatic switch 2 poles 10A 230V type C.

Brand: SCHNEIDER

Reference: IMPO M9F42210

The C60N UL489 2P C 10A Box is a two-pole circuit breaker designed to protect electrical circuits. Its 10-amp capacity makes it suitable for various applications, ensuring safety and reliability in power distribution.

Description

The C60N UL489 2P C 10A Box is a circuit breaker designed to provide effective protection in electrical installations. Compliant with UL489 standards, this device is ideal for residential and industrial applications, ensuring the safety and proper functioning of electrical circuits. Its compact and robust design allows for easy integration into electrical panels, while its 10A capacity makes it suitable for a variety of loads. The C60N is equipped with a tripping mechanism that ensures automatic disconnection in case of overload or short circuit, thus protecting both connected equipment and the installation as a whole.

- **Type:** Circuit breaker
- **Standard:** UL489
- **Poles:** 2P (double pole)
- **Rated current:** 10A
- **Rated voltage:** 240/415V
- **Curve:** C (for inductive and resistive loads)
- **Dimensions:** Compact, easy to install
- **Material:** Durable and resistant plastic
- **Operating temperature:** -25°C to +60°C
- **Certifications:** Meets international safety standards

Specifications

Rated current (A)	10
Curve	C
EAN	3606481169785
No. of poles	2P

Reference	SCHNEIDER M9F42210
Nominal voltage (V)	230V
