

Product sheet

iC60N 3P 2A B automatic switch - 3 poles, 2 amps, IP20 protection.

Brand: SCHNEIDER

Reference: IMPO A9F73302

The iC60N 3P 2A B is a three-phase circuit breaker designed to protect electrical circuits. It offers a rated current of 2 amps and features safety and reliability characteristics, making it ideal for industrial and commercial applications. Its compact design facilitates installation.

Description

The iC60N 3P 2A B is a high-quality circuit breaker designed to provide effective protection in three-phase electrical systems. This device is characterized by its ability to automatically disconnect the circuit in case of overload or short circuit, thus ensuring the safety of electrical installations. Its compact and robust design allows for easy integration into electrical panels, optimizing space and facilitating maintenance. Furthermore, it features a sensitive tripping mechanism that ensures a rapid response to any current anomaly.

- **Type:** Circuit breaker
- **Poles:** 3P (three-phase)
- **Rated current:** 2A
- **Rated voltage:** 400V AC
- **Tripping curve:** C
- **Protection:** Overload and short circuit
- **Dimensions:** Compact for easy installation
- **Material:** Durable and resistant plastic
- **Certifications:** Complies with international standards
- **Applications:** Use in industrial and commercial installations

Specifications

Rated current (A)	2
Curve	B
EAN	3606480079955
No. of poles	3P
Reference	SCHNEIDER A9F73302
