

Product sheet

SCHNEIDER NSX400 circuit breaker, 400A, 4 poles, 5.3E.

Brand: SCHNEIDER

Reference: IMPO C4045E400

The Ud.Control NSX400 AC 4P4R 400A 5.3E is a high-capacity circuit breaker designed to protect electrical circuits. Its 4-pole, 400-amp configuration makes it ideal for industrial and commercial applications requiring efficient energy control.

Description

The Ud.Control NSX400 AC 4P4R 400A 5.3E is a control and protection device designed for industrial applications requiring efficient electrical power management. This unit is characterized by its robustness and reliability, offering a comprehensive solution for protecting electrical circuits in demanding environments. Its compact and modular design allows for easy integration into existing electrical systems, ensuring optimal performance and a long service life. Furthermore, it features advanced technology that facilitates current monitoring and control, ensuring safety and operational efficiency.

- **Model:** NSX400 AC 4P4R
- **Rated Current:** 400A
- **Protection Type:** Overload and Short Circuit Protection
- **Configuration:** 4 poles, 4 relays
- **Operating Voltage:** AC
- **Dimensions:** Compact for easy installation
- **Material:** Robust and durable construction
- **Certifications:** Complies with international safety standards
- **Applications:** Ideal for industrial and commercial environments
- **Ease of Maintenance:** Accessible design for periodic inspections

Specifications

Frequency	50/60 Hz
Rated current (A)	400
EAN	3606482003286
No. of poles	4P
Reference	SCHNEIDER C4045E400
