

Product sheet

VIGI 3-pole switch 220-440VAC 0.03-10A with adjustable protection.

Brand: SCHNEIDER

Reference: IMPO LV429492

The Vigi NSX250 3P is an electrical protection device designed to operate within a voltage range of 220-440VAC and a current range of 0.03-10A. Ideal for industrial applications, it ensures safety and reliability in electrical systems.

Description

The Vigi NSX250 3P 220-440VAC 0.03-10A is an electrical protection device designed to ensure the safety and proper functioning of electrical installations in industrial and commercial environments. This low-voltage circuit breaker offers an effective solution for overload and short-circuit protection, ensuring the continuity of electrical service and minimizing the risk of damage to connected equipment. Its robust design and adjustability allow it to adapt to various applications, providing a fast and reliable response to fault situations.

- **Type:** Low-voltage circuit breaker
- **Configuration:** 3-pole
- **Rated voltage:** 220-440VAC
- **Current range:** 0.03-10A
- **Protection:** Against overloads and short circuits
- **Mounting:** On DIN rail
- **Standards:** Complies with international safety standards
- **Dimensions:** Compact for easy installation
- **Operating temperature:** Wide range for various environmental conditions
- **Accessories:** Compatible with a variety of accessories for personalization

Specifications

Rated current (A)	250
EAN	3606481298584
No. of poles	3P
Reference	SCHNEIDER LV429492
