2CO Relay RELÉXPERT 5A with test button and LED 24VAC

Brand: SCHNEIDER

Reference: IMPO RXG22B7

The King The 2CO 5A+Test Button+LED 24VAC is a double-contact relay with a 5A capacity. It includes a test button and an LED indicator, designed for control and automation applications in 24VAC systems.

Description

The Rel The 2CO 5A+Test Button+LED 24VAC is a solid-state relay designed for applications requiring precise and reliable control of electrical circuits. This device operates at 24VAC and has a switching capacity of up to 5 amps, making it an ideal choice for industrial automation and control systems. Its compact design allows for easy integration into control panels, and its LED indicator provides a clear visualization of the relay's status. In addition, the built-in test button facilitates verifying the device's operation without needing to disconnect the system.

- **Operating Voltage:** 24VAC
- **Switching Capacity:** 5A
- **Relay Type:** Solid-State Relay
- **LED Indicator:** Yes, for status display
- **Test Button:** Integrated for functional verification
- **Dimensions:** Compact, ideal for control panels
- **Applications:** Industrial automation and control
- **Connections:** Easily accessible terminals
- **Operating Temperature:** Suitable range for industrial environments
- **Certifications:** Complies with electrical safety regulations
