

Product sheet

Acti9 A9A 0.1-6A switch with bottom connection and auxiliary protection.

Brand: SCHNEIDER

Reference: IMPO A9A26904

The Acti9 A9A iOF bottom wiring 0.1-6A aux is an electrical protection device designed for low-current applications. It is easy to install and allows for efficient energy management, ensuring safety and reliability in the electrical system.

Description

The Acti9 A9A iOF bottom wiring 0.1-6A aux is a protection and control device designed for electrical applications requiring efficient current management. This device integrates easily into electrical systems, offering a robust and reliable solution for circuit monitoring and control. Its compact design allows for simple installation in electrical panels, optimizing space and facilitating maintenance. With an adjustable current capacity of 0.1 to 6A, the Acti9 A9A is ideal for a variety of applications, ensuring optimal performance and a long service life.

- **Model:** Acti9 A9A iOF
- **Connection Type:** Bottom-wired
- **Current Range:** 0.1 - 6A
- **Protection:** Overload and short circuit
- **Dimensions:** Compact for easy installation
- **Standards:** Meets international safety standards
- **Operating Temperature:** Wide range for diverse environmental conditions
- **Material:** High-quality components for durability
- **Applications:** Ideal for residential and industrial electrical systems
- **Ease of maintenance:** Accessible design for quick inspections

Specifications

Rated current (A)	6
EAN	3606486115145
