Product sheet

2CO 5A relay with test button and LED 24VDC for efficient control.

Brand: SCHNEIDER

Reference: IMPO RXG22BD

The King The 2CO 5A+Test Button+LED 24VDC is a double-contact relay with a 5-amp capacity. It includes a test button and an LED indicator, ideal for control and automation applications in 24-volt DC systems.

Description

The Rel The 2CO 5A+Test Button+LED 24VDC is a solid-state relay designed for applications requiring efficient and reliable control of electrical circuits. This device features a robust structure and compact design, making it ideal for integration into control panels and automated systems. Its 24VDC operation allows for a wide range of applications in industrial and commercial environments, ensuring optimal performance and a long service life. The integrated test button facilitates verification of the relay's status, while the indicator LED provides a clear visualization of the device's operation.

- **Operating Voltage:** 24VDC
- **Current Capacity:** 5A
- **Relay Type:** 2 Changeover Contacts (2CO)
- **Test Button:** integrated for status verification
- **LED Indicator:** displays the operating status
- **Dimensions:** compact for easy installation
- **Material:** resistant to industrial conditions
- **Operating Temperature:** suitable for demanding environments
- **Certifications:** complies with safety regulations
- **Applications:** ideal for controlling machinery and automated systems

Specifications

Rated current (A)	5

EAN	3606480689178
