Product sheet

Acti9 A9A 0.1-6A switch with auxiliary control function and compact design.

Brand: SCHNEIDER

Reference: IMPO A9A26909

The Acti9 A9A iOF/SD+OF t&b wire 0.1-6A aux is an electrical protection device designed for auxiliary applications. It offers a current range of 0.1 to 6 amps, ensuring safe and efficient operation in electrical installations.

Description

The Acti9 A9A iOF/SD+OF t&b wire 0.1-6A aux is a protection and control device designed for electrical applications in industrial and commercial environments. This device is characterized by its high reliability and accuracy in current management, enabling effective monitoring of electrical conditions. Its compact design facilitates installation in electrical panels, optimizing space and ensuring efficient performance. Furthermore, it features advanced technology that guarantees a rapid response to overloads and short circuits, thus protecting connected equipment and improving the overall safety of the electrical system.

- **Current range:** 0.1-6A
- **Connection type:** T&B wire
- **Overload protection:** Yes
- **Short circuit protection:** Yes
- **Compact design:** Facilitates installation in electrical panels
- **Electrical condition monitoring:** Effective and accurate
- **Applications:** Ideal for industrial and commercial environments
- **Reliability:** High, guaranteeing system safety
- **Standards:** Complies with international quality standards
- **Durability:** Robust construction for prolonged use

Specifications

Rated current (A)	6
EAN	3606486115152
