

Product sheet

SCHNEIDER ATV320 7.5 kW 400V 3-phase variable frequency drive with advanced control.

Brand: SCHNEIDER

Reference: IMPO ATV320U75N4B

The ATV320 7.5KW 400V 3PH BOOK CONTROL VARIA is a frequency inverter designed to optimize the control of electric motors. It offers efficient and versatile performance, suitable for various industrial applications, ensuring reliable and precise operation.

Description

The ATV320 7.5KW 400V 3PH BOOK CONTROL VARIA is a frequency inverter designed to optimize the control of electric motors in industrial applications. This device offers an efficient and versatile solution for managing motor speed and torque, ensuring optimal performance and significant energy savings. Its compact and robust design allows for easy integration into existing systems, while its intuitive interface facilitates programming and operational monitoring. The ATV320 is ideal for a wide range of applications, from pumps and fans to conveyor belts and compressors.

- **Rated power:** 7.5 kW
- **Supply voltage:** 400 V
- **Phases:** 3PH
- **Motor control:** Vector and V/f
- **Frequency range:** 0 to 400 Hz
- **Protection:** IP20
- **User interface:** Backlit LCD display
- **Communication protocols:** Modbus, CANopen (optional)
- **Safety functions:** Emergency stop, overload control
- **Dimensions:** Compact for easy installation

Specifications

EAN	3606480931307
Reference	SCHNEIDER ATV320U75N4B
Nominal voltage (V)	380V
