Description

The KAEDRA OEM IP55 16 MOD. 1 ROW enclosure is a high-quality solution designed for the protection and distribution of electrical circuits in demanding environments. Its robust construction and IP55 rating guarantee excellent resistance to dust and water splashes, making it an ideal choice for both indoor and outdoor installations. This enclosure has a capacity for 16 modules in a single row, allowing for efficient organization of electrical components. Its modular design facilitates installation and maintenance, ensuring quick and easy access to the circuits.

- **IP Rating:** IP55, dust and water protection.
- **Capacity:** 16 modules in 1 row.
- **Material:** High-strength plastic.
- **Dimensions:** Compact and lightweight for easy installation.
- **Access:** Front door with secure lock.
- **Mounting:** Compatible with wall mounting.
- **Color:** White, aesthetic and functional finish.
- **Operating Temperature:** Suitable range for various environmental conditions.
- **Standards:** Complies with electrical safety standards.
- **Use:** Ideal for residential and industrial.
