Product sheet

Relay 2CO 5A with test button and LED 48VDC.

Brand: SCHNEIDER

Reference: IMPO RXG22ED

The King The 2CO 5A+Test Button+LED 48VDC is a double-contact relay with a 5A capacity. It includes a test button and an LED indicator, ideal for control and automation applications in 48VDC systems.

Description

The Rel The 2CO 5A+Test Button+LED 48VDC is a solid-state relay designed for industrial and commercial applications requiring efficient and reliable control of electrical circuits. This device allows switching of loads up to 5 amps, offering a robust solution for handling voltages up to 48VDC. Its compact and functional design includes a test button for easy relay status verification, as well as an LED indicator that provides visual feedback on its operation. This relay is ideal for automation and control systems, guaranteeing optimal performance under diverse operating conditions.

- **Relay Type:** Solid-State Relay
- **Current Capacity:** 5A
- **Operating Voltage:** 48VDC
- **Test Button:** Included for status verification
- **LED Indicator:** Visual indication of operation
- **Dimensions:** Compact for easy installation
- **Material:** Durable and robust construction
- **Applications:** Ideal for automation and control circuits
- **Connections:** Easily accessible terminals
- **Certifications:** Meets industrial safety standards

Specifications

Rated current (A)	5
