

Product sheet

Acti9 A9A 2-100mA switch with t&b connection and auxiliary protection.

Brand: SCHNEIDER

Reference: IMPO A9A26919

The Acti9 A9A iSD-OF t&b wiring 2-100mA aux is an electrical protection and control device. Designed for specific applications, it offers a wide range of current settings, ensuring efficient and safe operation in electrical systems.

Description

The Acti9 A9A iSD-OF t&b wiring 2-100mA aux is a high-precision device designed for monitoring and controlling electrical systems. This device stands out for its ability to measure leakage currents in a range of 2 to 100 mA, making it an ideal solution for applications in industrial and commercial environments. Its compact and robust design allows for easy integration into electrical panels, ensuring efficient and safe operation. Furthermore, it features advanced technology that ensures a fast and accurate response to current variations, contributing to the protection of electrical installations and equipment.

- **Measurement range:** 2-100 mA
- **Connection type:** Terminal block connection
- **Dimensions:** Compact for easy installation
- **Protection:** High overload resistance
- **Applications:** Ideal for industrial and commercial environments
- **Accuracy:** High accuracy in measuring leakage currents
- **Compatibility:** Compatible with standard electrical systems
- **Installation:** Easy integration into electrical panels
- **Durability:** Robust construction for long-term use
- **Standards:** Complies with standards of electrical safety

Specifications

Sensitivity	100
EAN	3606482129153
Reference	SCHNEIDER A9A26919
