Product sheet

SCHNEIDER A9 2-pole 5A type C circuit breaker.

Brand: SCHNEIDER

Reference: IMPO A9F74270

The A9 IC60N 2P 0 5A C is a double-pole circuit breaker designed to protect electrical circuits. It offers a current capacity of 5 amps, ensuring safety and efficiency in residential and industrial electrical installations.

Description

The A9 IC60N 2P 0 5A C is a high-quality circuit breaker designed to provide effective protection in electrical installations. This device is ideal for residential and industrial applications, ensuring the safety and proper functioning of electrical circuits. Its compact and robust design allows for easy installation in electrical panels, while its advanced technology ensures a rapid response to overloads and short circuits. With a rated current capacity of 5A, this circuit breaker is perfect for protecting low-power circuits, contributing to the stability and safety of the electrical network.

- **Type:** Circuit breaker
- **Model:** A9 IC60N
- **Poles:** 2P (double pole)
- **Rated current:** 5A
- **Rated voltage:** 230/400V
- **Curve:** C (overload and short-circuit protection)
- **Dimensions:** Compact for easy installation
- **Certifications:** Complies with international safety standards
- **Applications:** Residential and industrial
- **Durability:** High resistance and long lifespan shelf life

Specifications

Rated current (A)	0
Curve	C
EAN	3606480080234
No. of poles	2P
Reference	SCHNEIDER A9F74270
