Product sheet

# Modular Junction Box 32A 4 Poles - High capacity and compact design.

Brand: SCHNEIDER

Reference: IMPO KNB32CM55

This 32A, 4-pole modular junction box is designed to simplify electrical distribution in installations. Made from durable materials, it ensures a safe and efficient connection. Ideal for residential and industrial applications requiring organized electrical management.

## Description

The 32A 4-Pole Modular Junction Box is an essential component for electrical distribution in industrial and commercial installations. Designed to ensure a safe and efficient connection, this box allows for the orderly and accessible branching of electrical circuits. Its modular structure facilitates adaptation to different configurations, ensuring optimal performance in various applications. Manufactured with high-quality materials, this box offers strength and durability, complying with current electrical safety regulations.

- **Rated capacity:** 32A
- **Number of poles:** 4
- **Material:** Impact-resistant plastic
- **Protection rating:** IP65
- **Dimensions:** 200 x 150 x 100 mm
- **Operating temperature:** -20°C to +60°C
- **Connections:** Screw terminals for easy installation
- **Color:** Gray
- **Certifications:** Complies with IEC and UNE standards
- **Use:** Ideal for electrical installations in environments industrial and commercial
