

Product sheet

MULTI9 6A C 500V-DC compact and efficient circuit breaker.

Brand: SCHNEIDER

Reference: IMPO M9U21206

The MULTI9 C60H-DC 6A C 500V-DC is a miniature circuit breaker designed for DC circuits. It offers reliable and efficient protection, ideal for industrial and commercial applications. Its compact design facilitates installation in confined spaces.

Description

The MULTI9 C60H-DC 6A C 500V-DC is a DC circuit breaker designed for industrial and commercial applications requiring efficient and safe electrical power control. This compact and robust device offers reliable protection against overloads and short circuits, ensuring the integrity of electrical circuits in demanding environments. Its modular design allows for easy installation and maintenance, making it an ideal choice for electrical panels and power distribution systems.

- **Type:** DC circuit breaker
- **Rated current:** 6A
- **Rated voltage:** 500V-DC
- **Protection:** Overload and short circuit
- **Dimensions:** Miniature, optimizing panel space
- **Installation:** Easy DIN rail mounting
- **Standards:** Complies with international safety standards
- **Operating temperature:** Wide range for various environmental conditions
- **Lifespan:** High durability and wear resistance
- **Applications:** Ideal for photovoltaic systems and other applications of DC

Specifications

Rated current (A)	6
Curve	C
EAN	3606480741777
No. of poles	2P
Reference	SCHNEIDER M9U21206
Nominal voltage (V)	500V
