

Product sheet

SCHNEIDER 63A 8-pole junction box, ideal for safe electrical connections.

Brand: SCHNEIDER

Reference: IMPO KNB63SM48

63A, 8-pole junction box designed to facilitate electrical distribution in installations. Manufactured with durable materials, it ensures a safe and efficient connection. Ideal for residential and industrial applications requiring proper energy management.

Description

The 63A 8-pole junction box is an essential component for electrical distribution in industrial and commercial installations. Designed to ensure a safe and efficient connection, this junction box allows the distribution of electrical current to multiple circuits, facilitating energy management and control. Its robust construction and high-quality materials ensure a long service life and resistance to adverse conditions, while its modular design allows for easy installation and maintenance.

- **Rated capacity:** 63A
- **Number of poles:** 8
- **Housing material:** High-strength polypropylene
- **Protection rating:** IP65, dustproof and waterproof
- **Dimensions:** 300 x 200 x 150 mm
- **Operating temperature:** -20°C to +60°C
- **Connections:** Screw terminals for better gripping
- **Color:** Light gray
- **Standards:** Complies with IEC and UNE
- **Weight:** 2.5 kg

This junction box is ideal for applications where reliable and safe electrical distribution is required, guaranteeing optimal performance at all times.
