## Description

The front-end alignment lift is an essential component for ensuring accuracy and optimal performance in vehicle alignment. Designed with advanced technology, this lift allows for proper calibration of the suspension geometry, improving vehicle stability and handling. Its robust construction and high-quality materials ensure long-lasting durability and wear resistance, making it a reliable choice for automotive workshops and enthusiasts. This product is compatible with a wide variety of vehicle models, facilitating its integration into different alignment systems.

- **Material:** High-strength steel
- **Compatibility:** Alignment of multiple vehicle makes and models
- **Dimensions:** 30 cm x 15 cm x 5 cm
- **Weight:** 2 kg
- **Finish:** Anti-corrosion treatment
- **Installation:** Quick and easy, no special tools required
- **Precision:** Improves the accuracy of suspension alignment
- **Durability:** Resistant to wear and adverse conditions
- **Use:** Ideal for mechanical workshops and home use
- **Certification:** Meets quality standards international

## Specifications

| | |
|---|---|
| EAN | 3606480021695 |
| No. of poles | 3P, 4P |
| Reference | SCHNEIDER LV431064 |
| Series | Solera Mural |
