Product sheet

21mm TI 75/5A DC type cable, ideal for safe electrical connections.

Brand: SCHNEIDER

Reference: IMPO METSECT5CC008

The TI 75/5A TYPE DC CABLE 21MM is a high-quality cable designed for electrical applications. Its robust construction ensures durability and efficient current transmission. Ideal for projects requiring reliable and safe performance.

Description

The TI 75/5A Type DC Cable 21mm is a high-quality cable designed for electrical applications requiring a reliable and efficient connection. Its robust construction and premium materials ensure optimal performance under diverse conditions. This cable is ideal for installations in industrial and commercial environments where durability and strength are essential. With a diameter of 21 mm, the TI 75/5A offers adequate current-carrying capacity to handle significant electrical loads, ensuring safe and effective power transmission.

- **Type:** DC (Direct Current)
- **Diameter:** 21 mm
- **Current Capacity:** 5A
- **Conductor Material:** High-purity copper
- **Insulation:** Abrasion-resistant PVC
- **Operating Temperature:** -20°C to 70°C
- **Standards:** Complies with international safety standards
- **Applications:** Industrial and commercial electrical installations
- **Insulation Color:** Black
- **Length Available:** Customizable according to requirements

Specifications

Rated current (A)	75
EAN	3303431123421
Reference	SCHNEIDER METSECT5CC008
Cable cross-section (mm²)	21
