Product sheet

SCHNEIDER iC60N 1 pole + neutral automatic switch, 3A, overload protection.

Brand: SCHNEIDER

Reference: IMPO A9F74603

The iC60N 1P+N 3A C is a circuit breaker designed to protect electrical circuits. It offers a current capacity of 3 amps and features a single-pole plus neutral configuration, ideal for residential and commercial applications.

Description

The iC60N 1P+N 3A C is a high-quality circuit breaker designed for the protection of electrical circuits in residential and industrial applications. This device offers an effective solution for automatic disconnection in case of overloads or short circuits, ensuring the safety and proper functioning of electrical installations. Its compact design allows for easy integration into electrical panels, while its advanced technology ensures reliable and long-lasting performance. With a rated current capacity of 3A, this circuit breaker is ideal for low-power circuits, providing a quick response to any electrical system anomaly.

- **Type of circuit breaker:** Automatic
- **Poles:** 1P+N (single-phase with neutral)
- **Rated current:** 3A
- **Rated voltage:** 230V AC
- **Tripping curve:** C
- **Overload protection:** Yes
- **Short-circuit protection:** Yes
- **Dimensions:** Compact, easy to install
- **Certifications:** Complies with safety standards
- **Applications:** Residential and industrial

Specifications

Rated current (A)	3
Curve	C
EAN	3606480080449
No. of poles	1P+N

Reference	SCHNEIDER A9F74603
