

Product sheet

21mm TI 150/5A DC type cable, ideal for safe electrical connections.

Brand: SCHNEIDER

Reference: IMPO METSECT5CC015

The TI 150/5A TYPE DC CABLE 21MM is a high-quality cable designed for direct current applications. Its robust construction ensures durability and efficient power transmission, making it ideal for various electrical and electronic installations.

Description

The TI 150/5A TYPE DC CABLE 21MM is a high-quality cable designed for electrical applications requiring a safe and efficient connection. Its robust construction and premium materials ensure optimal performance under various conditions. This cable is ideal for industrial and commercial installations where reliability and durability are essential. With a diameter of 21 mm, the TI 150/5A offers excellent current-carrying capacity, making it a versatile choice for various electrical projects.

- **Type:** DC (Direct Current)
- **Diameter:** 21 mm
- **Current Capacity:** 150 A
- **Conductor Material:** High-purity copper
- **Insulation:** High-temperature resistant PVC
- **Applications:** Industrial and commercial installations
- **Standards:** Meets international safety standards
- **Flexibility:** High flexibility for easy installation
- **Resistance:** High resistance to abrasion and chemicals
- **Color:** Black

Specifications

Rated current (A)	150
EAN	3303431123452
Reference	SCHNEIDER METSECT5CC015
Cable cross-section (mm ²)	21
