

Product sheet

Acti9 A9N switch with 0.1-6A current and bottom connection.

Brand: SCHNEIDER

Reference: IMPO A9N26904

The Acti9 A9N OF is a bottom-wiring device designed for currents from 0.1 to 6A. Its compact and functional design allows for efficient installation in electrical systems, ensuring optimal performance and easy integration into various applications.

Description

The Acti9 A9N OF bottom wiring 0.1-6A aux is a protection and control device designed for electrical applications requiring efficient current management. This device integrates easily into electrical systems, offering a reliable solution for circuit protection and energy performance optimization. Its compact and robust design allows for easy installation and minimal maintenance, ensuring safe and long-lasting operation under various operating conditions.

- **Current Range:** 0.1-6A
- **Connection Type:** Bottom-wired
- **Dimensions:** Compact for easy installation
- **Standards:** Meets international safety standards
- **Protection:** Integrated protection circuit
- **Applications:** Ideal for industrial and commercial environments
- **Material:** Manufactured from high-quality materials for durability
- **Operating Temperature:** Wide range to suit various conditions
- **Ease of Use:** Intuitive design for quick installation and setup
- **Compatibility:** Compatible with other devices in the Acti9 range

Specifications

Rated current (A)	6
