

Product sheet

Acti9 A9N 0.1-6A switch with bottom connection and auxiliary protection.

Brand: SCHNEIDER

Reference: IMPO A9N26907

The Acti9 A9N SD bottom wiring 0.1-6A aux is an electrical protection device designed for low-current applications. It is easy to install and allows for efficient energy management, ensuring safety and reliability in the electrical system.

Description

The Acti9 A9N SD bottom wiring 0.1-6A aux is a device designed to offer an efficient and reliable solution for managing electrical circuits. This equipment integrates easily into electrical distribution systems, providing adequate protection and precise current control. Its compact and modular design allows for simple installation, optimizing space in electrical panels. Furthermore, its current adjustment capability from 0.1 to 6A makes it a versatile option for various applications, ensuring optimal performance in residential and industrial environments.

- **Model:** Acti9 A9N SD
- **Connection Type:** Bottom-wired
- **Current Range:** 0.1 to 6A
- **Rated Voltage:** 230/400V AC
- **Protection:** Overload and short circuit
- **Dimensions:** Compact for easy installation
- **Standards:** Complies with international safety standards
- **Operating Temperature:** -25°C to +60°C
- **Lifespan:** High durability and reliability
- **Applications:** Residential and industrial

Specifications

Rated current (A)	6
EAN	3606486366165
Reference	SCHNEIDER A9N26907
