

Product sheet

Acti9 A9N 0.1-6A switch with differential protection and auxiliary connection.

Brand: SCHNEIDER

Reference: IMPO A9N26909

The Acti9 A9N OF/SD+OF top/bt wir 0.1-6A aux is an electrical protection device designed to ensure safety in installations. It offers an adjustable current range and is compatible with various applications, ensuring efficient and reliable operation.

Description

The Acti9 A9N OF/SD+OF top/bt wir 0.1-6A aux is a protection and control device designed for electrical applications in industrial and commercial environments. This circuit breaker offers an efficient and safe solution for managing electrical circuits, ensuring protection against overloads and short circuits. Its compact and modular design allows for easy integration into electrical panels, optimizing space and facilitating maintenance. Furthermore, it features an intuitive interface that allows for quick configuration and monitoring of electrical parameters, ensuring reliable and continuous operation.

- **Current range:** 0.1-6A
- **Protection type:** Overload and short circuit
- **Connection:** Top/bt wire
- **Dimensions:** Compact and modular
- **Installation:** Easy integration into electrical panels
- **Interface:** Intuitive for configuration and monitoring
- **Standards:** Complies with international safety standards
- **Applications:** Ideal for industrial and commercial environments
- **Durability:** Robust construction for extended use
- **Compatibility:** Integrable with other Acti9 devices

Specifications

Rated current (A)	6
EAN	3606486351796
