

Product sheet

Acti9 A9N 2-100mA switch with bottom connection and auxiliary protection.

Brand: SCHNEIDER

Reference: IMPO A9N26917

The Acti9 A9N SD bottom wiring 2-100mA aux is an electrical protection device designed for industrial applications. It offers an adjustable current range and facilitates installation in electrical systems, ensuring safe and efficient operation.

Description

The Acti9 A9N SD bottom wiring 2-100mA aux is a high-precision device designed for current measurement and control in electrical applications. This device is characterized by its ability to operate within a current range of 2 to 100 mA, making it a versatile solution for various installations. Its compact and robust design allows for easy integration into existing electrical systems, ensuring reliable and long-lasting performance. Furthermore, its advanced technology ensures a fast and accurate response, which is essential for the effective monitoring of electrical circuits.

- **Current Range:** 2-100 mA
- **Connection Type:** Bottom-wired
- **Compatibility:** Ideal for standard electrical systems
- **Design:** Compact and robust
- **Accuracy:** High measurement accuracy
- **Installation:** Easy integration into existing installations
- **Applications:** Monitoring and control of electrical circuits
- **Durability:** Built for long-term use
- **Standards:** Meets electrical safety standards
- **Manufacturer:** Acti9

Specifications

Sensitivity	100
EAN	3606482129191
Reference	SCHNEIDER A9N26917
