Description

The RS Double Push Cap is an essential component designed to optimize the performance of connection systems in industrial and technical environments. Manufactured from high-quality materials, this cap guarantees exceptional durability and superior resistance to harsh conditions. Its ergonomic design allows for easy handling, while its double push system ensures a tight seal, preventing the entry of contaminants and guaranteeing the integrity of the connections. This product is ideal for applications requiring a high level of safety and reliability.

- **Material:** High-strength plastic
- **Closure type:** Double push-button
- **Dimensions:** 50 mm diameter
- **Thermal resistance:** -20°C to 80°C
- **IP rating:** IP65
- **Color:** Black
- **Weight:** 30 g
- **Compatibility:** Industry standard connectors
- **Applications:** Electrical and electronic systems
- **Certifications:** CE, RoHS
