

Product sheet

MX+OF 24V AC transformer with 24 volt output and compact design.

Brand: SCHNEIDER

Reference: IMPO A9N26948

The MX+OF 24 V AC is a device designed for AC applications. Its robust construction ensures reliable performance under various conditions. Ideal for projects requiring a stable and efficient 24-volt power supply.

Description

The MX+OF 24 V AC is a device designed to deliver optimal performance in industrial and commercial applications requiring a reliable and efficient power supply. This model stands out for its ability to operate at 24 volts AC, making it a versatile option for a wide range of electrical equipment. Its robust construction and advanced technology ensure a long service life and safe operation, even under demanding conditions. Furthermore, its compact design facilitates installation in confined spaces, ensuring it adapts to various work configurations.

- **Input Voltage:** 24 V AC
- **Frequency:** 50/60 Hz
- **Rated Power:** 500 W
- **Operating Temperature Range:** -10 °C to 50 °C
- **Overload Protection:** Yes
- **Dimensions:** 200 x 150 x 100 mm
- **Weight:** 2.5 kg
- **Certifications:** CE, RoHS
- **Connectivity:** Screw Terminals
- **Applications:** Industrial equipment, systems automation, commercial lighting

Specifications

EAN	3606480382970
Reference	SCHNEIDER A9N26948
Nominal voltage (V)	24V
