

Product sheet

SCHNEIDER 4P 52.5 mm spacers + phase separator for electrical installation.

Brand: SCHNEIDER

Reference: IMPO LV432491

52.5 mm 4P spacers with phase separator, designed to optimize performance in specific applications. Manufactured from high-quality materials, they ensure precise and secure installation, improving component alignment and performance.

Description

4P (52.5mm) spacers + phase separator are essential components for optimizing the performance and stability of electrical and electronic systems. Designed for ease of installation and maintenance, these spacers ensure precise alignment and proper separation between elements, contributing to operational efficiency and system safety. Its robust construction and high-quality materials ensure a long service life and resistance to adverse conditions.

- **Dimensions:** 52.5 mm in length
- **Material:** High-strength plastic
- **Type:** 4P spacers with phase separator
- **Applications:** Electrical and electronic systems
- **Installation:** Quick and easy, no special tools required
- **Durability:** High durability and resistance to environmental conditions
- **Compatibility:** Suitable for various system configurations
- **Certifications:** Complies with safety and quality standards
- **Color:** Black
- **Package:** Includes 4 spacers and 1 phase separator

These spacers are ideal for those seeking effective and reliable solutions for installing electrical components, ensuring optimal and safe operation.

Specifications

EAN	3606480019661
No. of poles	4P
Reference	SCHNEIDER LV432491
Cable cross-section (mm²)	52.5
