

Product sheet

SCHNEIDER 220/240V mechanical retractor block, ideal for electrical control systems.

Brand: SCHNEIDER

Reference: IMPO LA6DK20M

The 220/240V Mechanical Resistor Block is an electrical component designed for control and automation systems. Compatible with various applications, it offers reliable and efficient performance in industrial environments. Its robust design ensures durability and easy integration into electrical installations.

Description

The 220/240V Mechanical Resistor Block is a device designed to offer an efficient and safe solution in medium-voltage electrical applications. Its robust construction and high-quality materials guarantee optimal performance in industrial and commercial environments. This block is ideal for connecting and disconnecting electrical circuits, providing effective protection against overloads and short circuits. Its compact design facilitates installation in confined spaces, while its compatibility with different electrical systems makes it a versatile option for various applications.

- **Nominal Voltage:** 220/240V
- **Frequency:** 50/60 Hz
- **Maximum Current:** 16A
- **Housing Material:** Impact-resistant Polypropylene
- **Protection Rating:** IP65
- **Operating Temperature:** -20°C to +60°C
- **Connections:** Screw terminals for easy installation
- **Certifications:** CE, RoHS
- **Dimensions:** 120 x 80 x 60 mm
- **Weight:** 0.5 kg

Specifications

EAN	3389110745894
Reference	SCHNEIDER LA6DK20M
Series	Solera Mural
