

Product sheet

SCHNEIDER TI 400/5A cable with 5 amps and MC type for electrical installations.

Brand: SCHNEIDER

Reference: IMPO METSECT5MC040

The TI 400/5A TYPE MC CABLE/BUSBAR is an electrical conductor designed for industrial applications. It offers high strength and durability, ensuring efficient performance in electrical systems. Its construction allows for easy installation and adaptation to various configurations.

Description

The TI 400/5A TYPE MC CABLE/BUSBAR is an essential component in electrical systems requiring an efficient and safe connection. Designed for industrial and commercial applications, this cable/busbar offers high conductivity and resistance to harsh conditions. Its robust construction ensures optimal performance in demanding environments, while its versatile design allows for easy integration into various electrical configurations. This product is ideal for power transmission in large-scale electrical installations, ensuring reliable and long-lasting distribution.

- **Type:** MC Cable/Busbar
- **Section:** 400 mm²
- **Rated Current:** 5A
- **Conductor Material:** High-purity copper
- **Insulation:** Cross-linked polyethylene
- **Operating Temperature:** -40°C to +90°C
- **Corrosion Resistance:** High
- **Certifications:** Complies with international standards
- **Applications:** Industrial, commercial, and residential installations
- **Available Length:** Customizable according to requirements

Specifications

Rated current (A)	400
EAN	3606480618833
Reference	SCHNEIDER METSECT5MC040
