Description

The ACTI9 IK60N 2P 50A C MINIATURE CIRCUIT B is a high-quality circuit breaker designed to provide effective protection in electrical installations. This device is ideal for residential and industrial applications, ensuring the safety and proper functioning of electrical circuits. Its compact design allows for easy integration into electrical panels, while its 50A capacity ensures optimal performance under various load conditions. With a type C tripping curve, this circuit breaker is capable of handling overloads and short circuits, providing a fast and reliable response to hazardous situations.
