

## Product sheet

**B.POT.EVER 23-32A C10A relay protection for electrical circuits.**

Brand: SCHNEIDER

Reference: IMPO LRD332

The REL?PROT. T?M. 23-32A C10A, B.POT.EVER is an electrical protection device designed to ensure safety in electrical installations. Its compact and efficient design allows for easy integration into electrical systems, offering a reliable solution for circuit protection.

[View product online](#)**Description**

The REL?PROT. T?M. 23-32A C10A, B.POT.EVER is an electrical protection device designed to ensure safety and efficiency in electrical installations. This protective relay is primarily used in power distribution systems, offering a rapid response to overloads and short circuits. Its compact and robust design allows for easy integration into electrical panels, ensuring optimal performance in various industrial and commercial applications. With a current capacity of 23-32A and a response time of 10A, this device is ideal for protecting sensitive equipment and maintaining continuity of electrical service.

- **Device Type:** Protection Relay
- **Current Range:** 23-32A
- **Response Time:** 10A
- **Applications:** Electrical Distribution Systems
- **Design:** Compact and Robust
- **Installation:** Easy integration into electrical panels
- **Protection:** Overload and Short Circuit
- **Use:** Sensitive Equipment and Continuity of Service
- **Manufacturer:** B.POT.EVER
- **Standards:** Complies with safety standards electric

**Specifications**

|                   |                  |
|-------------------|------------------|
| Rated current (A) | 32               |
| Curve             | C                |
| EAN               | 3389119215480    |
| Reference         | SCHNEIDER LRD332 |
