

Product sheet

B.POT.EVER 37-50A C10A Relay Protection for electrical systems.

Brand: SCHNEIDER

Reference: IMPO LRD350

The TM 37-50A C10A protection relay is designed to ensure safety in electrical systems. This device from B.POT.EVER offers a reliable solution for monitoring and controlling circuits, guaranteeing optimal and safe operation.

Description

The REL?PROT. T?M. 37-50A C10A, B.POT.EVER is an electrical protection device designed to ensure the safety and proper functioning of electrical installations in industrial and commercial environments. This device is characterized by its high breaking capacity and reliable overload and short-circuit detection, making it an ideal solution for protecting electrical circuits. Its robust and compact design allows for easy integration into electrical panels, optimizing space and facilitating maintenance. In addition, it features a signaling system that provides clear information about the device's status, ensuring efficient energy management.

- **Rated capacity:** 37-50A
- **Protection type:** C10A
- **Brand:** B.POT.EVER
- **Application:** Electrical circuit protection
- **Design:** Compact and robust
- **Interrupting:** High interrupting capacity
- **Signaling:** Device status indicator
- **Installation:** Easy integration into electrical panels
- **Use:** Industrial and commercial environments
- **Standards:** Complies with electrical safety standards

Specifications

Rated current (A)	50
Curve	C
EAN	3389119215503
Reference	SCHNEIDER LRD350
