

Product sheet

Quick switch SCHNEIDER PRD8r 1P+N, 16A, 230V, IP20 protection.

Brand: SCHNEIDER

Reference: IMPO A9L16298

The Quick PRD8r 1P+N is a measuring device designed to facilitate the evaluation of electrical parameters. Its compact and functional design allows for efficient use in various applications, ensuring accuracy and reliability in the results obtained.

Description

The Quick PRD8r 1P+N is an overload protection and control device designed for residential and industrial electrical applications. This device is characterized by its ability to automatically detect and disconnect circuits in case of overloads or short circuits, thus ensuring the safety of electrical installations. Its compact design allows for easy integration into electrical panels, while its advanced technology ensures reliable and long-lasting performance. The Quick PRD8r 1P+N is ideal for protecting household appliances, machinery, and other equipment sensitive to current fluctuations.

- **Rated Voltage:** 230V AC
- **Rated Current:** 16A
- **Protection Type:** 1 pole + neutral
- **Response Time:**

Specifications

Rated current (A)	16
EAN	3606480387104
No. of poles	1P+N
Reference	SCHNEIDER A9L16298
Nominal voltage (V)	230V
