

Product sheet

iC60N SCHNEIDER automatic switch 1 pole + neutral, 6A, type B.

Brand: SCHNEIDER

Reference: IMPO A9F78606

The iC60N 1P+N 6A B is a circuit breaker designed to protect electrical circuits. With a 6-amp capacity, it offers an efficient energy management solution for residential and commercial installations, ensuring safety and reliability.

[View product online](#)**Description**

The iC60N 1P+N 6A B is a high-quality circuit breaker designed to provide effective protection in residential and industrial electrical installations. This device is ideal for protecting electrical circuits, ensuring the safety and proper functioning of connected equipment. Its compact and robust design allows for easy installation in electrical panels, while its advanced technology ensures reliable performance under various operating conditions. The iC60N features a quick-disconnect system that minimizes the risk of overloads and short circuits, contributing to the overall safety of the electrical installation.

- **Type:** Circuit breaker
- **Poles:** 1P+N (single-phase with neutral)
- **Rated current:** 6A
- **Rated voltage:** 230V
- **Curve:** B (overload and short-circuit protection)
- **Dimensions:** Compact for easy installation
- **Material:** Durable and resistant plastic
- **Certifications:** Complies with electrical safety standards
- **Operating temperature:** -25°C to +60°C
- **Life Useful:** High durability and reliability

Specifications

Rated current (A)	6
Curve	B
EAN	3606480093036
No. of poles	1P+N

Reference	SCHNEIDER A9F78606
