Product sheet

SCHNEIDER iC60N automatic switch, 1 pole + neutral, 16A, protection B.

Brand: SCHNEIDER

Reference: IMPO A9F78616

The iC60N 1P+N 16A B is a high-quality circuit breaker designed to protect electrical circuits. Its single-phase configuration and 16-amp capacity make it ideal for residential and commercial applications, ensuring safety and efficiency in electrical distribution.

Description

The iC60N 1P+N 16A B is a high-quality circuit breaker designed to provide effective protection in residential and industrial electrical installations. This device is characterized by its ability to interrupt the current in case of overloads or short circuits, thus ensuring the safety of connected equipment. Its compact design allows for easy installation in electrical panels, while its advanced technology ensures reliable and long-lasting operation. With a 16-amp rating, this circuit breaker is ideal for applications requiring efficient energy management.

- **Type:** Circuit breaker
- **Poles:** 1P+N (single-phase with neutral)
- **Rated current:** 16A
- **Rated voltage:** 230V
- **Curve:** B (overload and short-circuit protection)
- **Dimensions:** Compact for easy installation
- **Material:** Impact-resistant plastic
- **Certifications:** Complies with electrical safety standards
- **Operating temperature:** -25°C to +60°C
- **Lifespan:** High durability and reliability

Specifications

Rated current (A)	16
Curve	B
EAN	3606480093050
No. of poles	1P+N
Reference	SCHNEIDER A9F78616
