Product sheet

SCHNEIDER iC60N 1 pole + neutral automatic switch, 40A, C protection.

Brand: SCHNEIDER

Reference: IMPO A9F77640

The iC60N 1P+N 40A C is a high-quality circuit breaker designed to protect electrical circuits. Its single-phase configuration and 40-amp capacity ensure efficient and safe performance in residential and industrial applications. Ideal for electrical installations.

Description

The iC60N 1P+N 40A C is a high-quality circuit breaker designed for the protection of electrical circuits in residential and industrial installations. This device offers an effective solution for disconnection and protection against overloads and short circuits, ensuring the safety and reliability of the electrical supply. Its compact design allows for easy installation in electrical panels, while its advanced technology ensures optimal performance under various operating conditions.

- **Type of switch:** Automatic
- **Poles:** 1P+N (1 phase + neutral)
- **Rated current:** 40A
- **Tripping curve:** C
- **Rated voltage:** 230/400V
- **Overload protection:** Yes
- **Short circuit protection:** Yes
- **Dimensions:** Compact, easy to install
- **Certifications:** Complies with international standards
- **Applications:** Residential and industrial

The The iC60N 1P+N 40A C is a reliable option for those looking for a circuit breaker that combines safety and efficiency in electrical power management.

Specifications

Rated current (A)	40
Curve	C
EAN	3606480093548

No. of poles	1P+N
Reference	SCHNEIDER A9F77640
