

Product sheet

SCHNEIDER iC60N 1 pole + neutral automatic switch, 50A, C protection.

Brand: SCHNEIDER

Reference: IMPO A9F77650

The iC60N 1P+N 50A C is a high-quality circuit breaker designed to protect electrical circuits. With a 50-amp capacity, it offers an efficient and safe solution for residential and industrial electrical installations. Ideal for AC applications.

Description

The iC60N 1P+N 50A C is a high-quality circuit breaker designed to provide effective protection in residential and industrial electrical installations. This device combines a compact design with a rated current capacity of 50 amps, making it an ideal choice for applications requiring efficient energy management. Its fast-disconnect technology ensures electrical system safety by minimizing the risk of overloads and short circuits. Furthermore, its robust construction ensures a long service life and reliable performance under various operating conditions.

- **Type:** Circuit breaker
- **Poles:** 1P+N (single-phase with neutral)
- **Rated current:** 50A
- **Curve:** C (overload and short-circuit protection)
- **Rated voltage:** 230V AC
- **Frequency:** 50/60 Hz
- **Dimensions:** Compact, easy to install
- **Certifications:** Complies with international safety standards
- **Operating temperature:** -25°C to +60°C
- **Mechanical service life:** 20,000 cycles

Specifications

Rated current (A)	50
Curve	C
EAN	3606480093555
No. of poles	1P+N
Reference	SCHNEIDER A9F77650
