

Product sheet

SCHNEIDER NSX400 automatic switch 220-240V 50/60Hz 400A 4 poles.

Brand: SCHNEIDER

Reference: IMPO LV432652

The MT400/630 common 220-240V 50/60HZ NSX400 is an electrical device designed to deliver efficient performance in a variety of applications. Its compatibility with different voltages and frequencies makes it versatile for industrial and commercial environments.

Description

The MT400/630 common 220-240V 50/60Hz NSX400 is a device designed to deliver optimal performance in industrial and commercial electrical applications. This equipment is characterized by its robustness and reliability, guaranteeing safe and efficient operation in demanding environments. Its compact design allows for easy integration into existing electrical systems, while its current handling capacity ensures stable and continuous operation. This model is ideal for protecting electrical circuits, offering advanced features that meet international quality and safety standards.

- **Nominal Voltage:** 220-240V
- **Frequency:** 50/60Hz
- **Nominal Current:** 400A
- **Device Type:** Circuit Breaker
- **Overload Protection:** Yes
- **Short Circuit Protection:** Yes
- **Dimensions:** Compact for easy installation
- **Construction Material:** High strength and durability
- **Standards:** Meets international standards
- **Applications:** Ideal for industrial and commercial environments

Specifications

Rated current (A)	400
EAN	3606480020261
No. of poles	4P
Reference	SCHNEIDER LV432652
Nominal voltage (V)	240
