

Product sheet

Quick SCHNEIDER 10kA 3-pole + neutral switch, efficient and compact protection.

Brand: SCHNEIDER

Reference: IMPO A9L16618

The Quick PF 10kA 3P+N is an electrical protection device designed for three-phase systems. It offers a breaking capacity of 10 kA, ensuring safety and reliability in overload and short-circuit protection in electrical installations.

Description

The Quick PF 10kA 3P+N is an electrical protection device designed to ensure safety and efficiency in electrical installations. This device is characterized by its ability to interrupt short-circuit currents of up to 10 kA, making it an ideal solution for industrial and commercial applications. Its compact and robust design allows for easy integration into electrical panels, ensuring optimal performance under high-demand conditions. Furthermore, it features a quick-connect system that facilitates installation and maintenance, reducing downtime during operations.

- **Device Type:** Circuit Breaker
- **Rated Current:** 10 kA
- **Poles:** 3P+N (three phases plus neutral)
- **Rated Voltage:** 400 V AC
- **Frequency:** 50/60 Hz
- **Overload Protection:** Yes
- **Short-Circuit Protection:** Yes
- **Dimensions:** Compact, easy to install
- **Standards:** Complies with IEC standards
- **Applications:** Industrial and commercial installations

Specifications

EAN	3606480387197
No. of poles	3P+N
Reference	SCHNEIDER A9L16618
