Description

The INT.HORARIO PROGRAM. IHP 2CANALES 2.5MOD is a device designed for the efficient management of schedules in electrical systems. This two-channel programmer allows the automation of different devices, optimizing energy consumption and improving the functionality of spaces. Its modular design facilitates installation and adaptation to various configurations, making it ideal for residential and industrial applications. With an intuitive interface, the user can easily program on/off schedules, ensuring precise control over the operation of connected equipment.

- **Channels:** 2 independent channels for simultaneous programming.
- **Modularity:** Modular design allows for easy integration into existing systems.
- **Programming Capacity:** Up to 20 on/off programs.
- **Time Intervals:** Daily, weekly, or specific-day programming.
- **Display:** LCD screen for clear visualization of settings.
- **Power Supply:** Operates on standard 230V.
- **Protection:** Overload and short-circuit protection.
- **Dimensions:** Compact, ideal for small spaces.
- **Installation:** Easy DIN rail mounting.
- **Certifications:** Complies with safety and energy efficiency standards.

Specifications

Rated current (A)	2
EAN	3606489524470
